

properties—properties to be included in the CBRs. By the end of 1988, the study group had completed its work and the Department of the Interior submitted the CBRs proposal to Congress.

This proposed inventory was the culmination of 8 years work and included suggestions made during two public comment periods. The first public comments were made following the release of an initial draft inventory in 1985. Additional comments were made following the release of a second draft in the spring of 1987. The Department of the Interior received numerous comments on these draft inventories and incorporated many in their final report to Congress. This final report was the basis for the Coastal Barrier Resources System adopted in 1990.

I recite this history because without an understanding of it, Mr. President, one can't understand the intent of my legislation.

While the Department of the Interior was drafting this proposed system, a strip of coastal South Carolina was being annexed by Colleton County from Charleston County. Unfortunately, this annexation occurred in 1987 in the midst of the 1987 CBRA comment period. Unfortunately, the notice of this second draft inventory was not received by Colleton County. The county never received any notice. It appears, the draft inventory was provided to Charleston County, not Colleton County. In fact, the maps currently on file at the Department of the Interior, still, incorrectly show this tract in Charleston County—not Colleton County. Thus, the citizens of Colleton County, never having had an opportunity to comment on these proposed changes, now find this tract included in the CBRs. And for all practical purposes off limits for development.

This bill corrects that mistake. It rights that wrong. It does not drastically redraft the Coastal Barrier Resources System nor withdraw any lands included in the 1985 draft. The bill simply returns a small portion of Edisto Island, SC, to its 1985 status.

I urge my colleagues to support this bill.
